

THE TALBOTT FAMILY OF WINES

Talbott Chardonnay *SLEEPY HOLLOW VINEYARD*

As our flagship wine, Sleepy Hollow Vineyard Chardonnay has become a benchmark for the lush power and complexity that define great Santa Lucia Highlands winegrowing. This wine is predominantly crafted using grapes from self-rooted Wente clone vines that in most cases are more than 30 years old, resulting in low yields and tremendous concentration. To add nuance, a small amount of Dijon clone fruit is also incorporated. The wine is predominantly barrel fermented in French oak and aged a minimum of 11 months on the lees to achieve a rich, toasty character. The result is a wine with minerality, richness and finesse, highlighting delicious tropical fruit flavors.

Talbott Pinot Noir *SLEEPY HOLLOW VINEYARD*

Our Sleepy Hollow Vineyard Pinot Noir is predominantly produced from older Martini clone vines, many of which were planted as early as 1972, and from a small amount of more youthful Dijon clone plantings. The wine was aged in French oak barrels for up to 15 months. Emphasizing fruit from warmer sections of the vineyard, the wine is both voluptuous and refined, balancing distinctly New World cherry and berry character with more layered and complex undertones.

Talbott Chardonnay *LOGAN*

Combining tropical elements from 30-year-old Wente clone vines, with the peach and apple flavors of more youthful Dijon plantings, Logan is a seamlessly layered Chardonnay exhibiting tropical flavors, citrus acidity, excellent concentration and wonderful balance. To accentuate the wine's vibrant approachability, 20-30 percent tank fermentation is used. In the cellar, Logan Chardonnay is sur lie aged in French oak for 10 months.

Talbott Pinot Noir *LOGAN*

Harvested exclusively from Sleepy Hollow Vineyard, Logan Pinot Noir combines the classic Talbott aromatics that are signature elements of the vineyard's older Martini clone vines, with the richness and intensity of the site's Dijon plantings. It is aged for approximately 10 months in French oak barrels. Crafted for near-term enjoyment, Logan showcases silky tannins, ripe cherry/berry fruit flavors and intriguing layers of cedar and vanilla.

Talbott Chardonnay *KALI HART*

Talbott Kali Hart Chardonnay emphasizes a fresh, exuberant, medium-bodied style of Chardonnay, while still offering classic Talbott notes of lush, tropical fruit, toasty oak, minerals and a long, citrus-filled finish. Our winemaking team presses the grapes, which are predominantly from 10- to 15-year-old Wente clone vines, as 100 percent whole clusters. To ensure brightness and youthful fruit purity, only 20 percent of the Chardonnay for our Kali Hart is barrel fermented, and the wine sees limited new oak. This regionally inspired wine is made to enjoy upon release.

Talbott Pinot Noir *KALI HART*

Youthful and bright, Talbott Kali Hart Pinot Noir is a layered, fruit-driven wine that emphasizes grapes from older Martini clone plantings, predominantly from Sleepy Hollow Vineyard. The fruit for Kali Hart is pressed and fermented hot in the traditional fashion to enhance richness and mouthfeel. In the cellar it spends nine months in French oak. Crafted in a style for earlier release than Talbott's other Pinot Noirs, Kali Hart offers lush fruit and lively acidity, with signature floral aromatics and cherry flavors.

Talbott Chardonnay *DIAMOND T VINEYARD*

Capturing the cool-climate essence of our windswept Diamond T Vineyard, this Chardonnay is predominantly barrel fermented and benefits from full lees contact during its 12 months of barrel aging in French oak. The wine is then bottle aged for up to a year prior to release. The result is a compelling and sophisticated Chardonnay filled with rich, concentrated flavors and aromas of tropical fruit, citrus, minerals and oak.
